COLLI BERICI

*In the heart of the Berici Hills, born from the recovery of an ancient 15th century village, the Azienda Agricola Del Rèbene extends for 23 hectares, in an uncontaminated environment overlooking the Gazzo Valley, included in the list of Italian landscape beauties.*

*The 5 hectares of vineyards and the 3 hectares of olive groves, are south facing at 300 meters above sea level, in soils of marine calcareous origin and enjoy a microclimate characterized by temperature variations thanks by the altitude, a dry and windy place, like the typical south Mediterranean bush.*

*The processing in the vineyard is organic and uses biodynamic techniques, allowing the grapes to reach full ripeness to make high quality wines.*
